WHAT YOUR NETWORK IS SAYING

Neil Hawkins Wish I were at @ClintonGlobal this week! It is a great gathering of people making positive change & impact. Do great things! <http://ow.ly/pbnmH>

At the Clinton Global Initiative, a day of policy, celebrities and...

A day in the life of former President Bill Clinton's annual confab, where policy meets celebrity.

Devra Davis Let's start a serious conversation about how to address the growing toll of distracted driving; if we automatically barred cell phones from working in moving cars that would block passengers as well. We need to create a culture where driving and being on the phone is shunned--much as smoking near children--excepting for true emergencies

[The Reality-Based Community](#)

I was listening to WEEI's broadcast of the ball game in the car this evening (the game in which Boston clinched a playoff slot, woo hoo). It's a wonderful world in which I can set my smartphone – better called a pocket computer – to pick up a...

Laurie Kazan-Allen That they are even considering this is insane. What is it that they don't understand about the potential for asbestos to kill human beings? <http://lnkd.in/bbDQ4ct>

Stowey Quarry to become an asbestos dump?

TV personality and GP Dr Phil Hammond has slammed Bath and North East Somerset Council for dropping its objection to the scheme to dump asbestos into Stowey Quarry. The application to dump hazardous...

5 things you should never say to your professor

Before you read any further, I want you to know two things about me, the author of this blog post. First, I am a young professor, which means that I completely understand the current demands of a student, how students go about selecting courses...

Donna Willis, MD, MPH Location, location location: the #Medicare "revolving door" is all about the location of the doors leading to readmission. These locations are also linked to #HealthLiteracy, (a study by Yale concerning patients lack of understanding their discharge summaries <http://bit.ly/14zqCv2>), lack of primary care resources, and an elderly poor population with fragment social networks (social capital) which impacts followup, and compliance. <http://bit.ly/19taWsE> It all boils down to the CARE in healthcare.

[Interactive Map: The Revolving Door Syndrome](#)

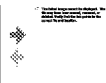

This interactive map displays Dartmouth Atlas Project data on percent of patients readmitted within 30 days of discharge in 2010 by region.
